

May 22, 2020

We have tested 43 residents and 102 employees. All results from these on-site tests are negative with no outstanding tests.

No news is good news. Unless there is a change, the next update will be Monday, May 25.

Many of you might have heard that the visitor restrictions in the hospitals have eased up a bit. Unfortunately this only applies to hospitals, not nursing homes. I expect that we will receive notice of easement of restrictions for visitors in LTC in the near future.

As soon as we know that we can relax some of the visitor restrictions, we will share this information with all of you. We are actively working to put the protocols in place for when this time comes so that we can respond to the opening quickly.

I know this is hard for you and not what you want to hear. I want to thank you for your patience and understanding as we continue to consider the safety of the residents and the staff as our priority.
