

April 16, 2020

Please note the following information is a general update. You should contact a member of the care team to confirm a resident's status as they are always the best source of accurate up to date information.

At this time we have no pending test results for either residents or staff. The remaining respiratory virus case has resolved so we have no residents on isolation or precautions for influenza like illness. This is great news.

There now are seven long-term care facilities in the province with residents and/or employees with COVID-19. We know that they all worked as hard as we are at keeping the virus out of their nursing home. Each day we get by with no outbreak is a celebration; as hard as it is for you to stay away, it is working. Please continue to be diligent and we will continue to do our best.

Requests for phone or video calls can be arranged by contacting the Recreation Department at 902-429-0550 ext. 119. As always, if you have other questions, please don't hesitate to contact Angela Berrette at 902-429-0550 ext. 103.
