

March 24, 2020

Today was uneventful at Saint Vincent's. We have no cases with residents or staff and no one displaying symptoms which require testing. We held a resident meeting to provide an update and answer questions on the current situation. Residents miss you but, spirits remain high. Our dedicated recreation staff are busy trying to connect family members with residents via FaceTime or Skype. If this is something you would like to arrange please let recreation know at 902-429-0550 ext. 119

Please note, we have implemented a new process for all dropped off items. In order to protect staff, they will no longer receive items directly or attempt to sanitize the items. Instead, please place the items in one of the bins in the vestibule which will be taken inside and isolated for 48 hours prior to delivering to a resident. This means we are not able to accommodate perishable or home-made food.

If you have questions about the care of your loved one, please be sure to reach out to the nursing staff on the unit. They are always the best source for information on residents. Questions regarding our preparedness for the pandemic can be directed to Angela Berrette, Executive Director or Ken Rehman, Director of Resident Care. Call our main line at 902-429-0550.
