

May 14, 2020

We are happy to report we continue to have no cases of COVID-19 and there are no outstanding tests.

As the weather warms, residents will spend more time outdoors. Unfortunately, we are not able to accommodate visits on the grounds even with social distancing. The public health directive remains in force and Dr. Strang's message has been clear, long-term care homes must be vigilant. The province may be lifting some restrictions but the need to protect our most vulnerable continues. Your understanding is appreciated.
