

September 23, 2020

Saint Vincent's weathered Teddy without issue besides some noisy wind and rain. We hope you fared as well!

Yesterday, Dr. Strang and the Premier announced another update for long-term care. Beginning Monday, September 28, residents can now leave the facility to visit with family in their homes.

Saint Vincent's is now hosting one on one indoor visits, virtual visits and designated caregiver visits. We assist with scheduling off-site medical and non-medical appointments and are happy to include the option of family home visits as we continue to support the physical, emotional and mental wellbeing of residents.

We are working to expand the number of opportunities for both the one on one and caregiver visits. Limited evening and weekend options are available for those who can't attend during the day.

Kathy will continue to book all appointments and schedule off-site visits. 902-429-0550 ext 113.

Please reach out if you have questions or concerns.

Thank-you,
