COVID-19 update

Effective Monday November 23rd, off-site visits are no longer permitted and as of Thursday, November 26th, one on one visits are cancelled for at least two weeks. In addition, we think it prudent to place a hold on accepting dropped off items. This change will assist in protecting our residents and staff while contributing to the need to minimize movement in the community.

Designated caregiver visits are still permitted for the identified individuals. These visitors must be willing to wear a mask and remain in the resident's room for the entire visit. We are asking that residents remain on site; we will review off-site drives in two weeks.

As always, we are asking that caregivers ensure they self-screen prior to leaving their home and then upon entry to the building. If you are feeling unwell, please err on the side of caution and stay home.
