COVID-19 update

During the briefing yesterday, Dr. Strang announced effective December 2<sup>nd</sup>, long term care homes will only be permitted to allow one Designated Caregiver per resident to visit. We know this may be a difficult decision to make.

For those residents who had two caregivers, the decision on who will be the ongoing caregiver is made by the resident and/or their substitute decision maker. Kathy, our Resident Services Coordinator at extension 113 will continue to book appointments for caregiver visits.
